- reproductive information, where relevant.

Declared history:

4. GENERAL CLINICAL EXAMINATION

4.1 General clinical parameters

Temperature: _____

Heart rate: _____

Respiratory rate: _____

Mucous membranes / CRT: _____

Hydration status: _____

General body condition: _____

4.2 General clinical assessment

Lymph nodes: _____

Skin and coat: _____

Respiratory system: _____

Cardiovascular system: _____

Digestive system: _____

Teeth / oral cavity: _____

Eyes / visual apparatus: _____

Neurological system: _____

Reproductive system (where relevant): _____

Other relevant clinical observations:

Summary outcome of general clinical examination:

☐ Within normal limits as ascertainable at the examination ☐ Findings / observations to be reported

Specify any findings:

5. LOCOMOTOR EXAMINATION

5.1 Static assessment

Conformation / limbs: _____

Back / topline: _____

Shoulders / hindquarters / muscle development: _____

Hooves / shoes / feet: _____

Other static observations:

5.2 Dynamic assessment

Assessment in hand in a straight line: ☐ Regular ☐ With findings

Notes: _____

Assessment in a straight line on hard ground: ☐ Regular ☐ With findings

Notes: _____

Assessment in a straight line on soft ground: ☐ Regular ☐ With findings

Notes: _____

Assessment in a circle / on the lunge to the right: ☐ Regular ☐ With findings

Notes: _____

Assessment in a circle / on the lunge to the left: ☐ Regular ☐ With findings

Notes: _____

5.3 Flexion tests (if performed)

Right forelimb: _____

Left forelimb: _____

Right hindlimb: _____

Left hindlimb: _____

AAEP scale / summary assessment: _____

5.4 Locomotor outcome

Summary outcome of locomotor examination: ☐ Within normal limits as ascertainable at the examination ☐ Findings / observations to be reported

Specify any findings:

6. INSTRUMENTAL EXAMINATIONS ATTACHED OR AVAILABLE

6.1 Radiographs

☐ Not performed / not attached ☐ Performed and attached

Date of X-rays: _____

Number of projections / dataset: _____

X-ray report attached: ☐ Yes ☐ No

Summary of X-ray findings:

6.2 Ultrasound

☐ Not performed / not attached ☐ Performed and attached

Date: _____

Subject matter of the examination: _____

Summary outcome:

6.3 Endoscopy

☐ Not performed / not attached ☐ Performed and attached

Date: _____

Summary outcome:

6.4 Laboratory tests

☐ Not performed / not attached ☐ Performed and attached

Type of tests: _____

Summary outcome:

6.5 Genetic tests / WFFS / other tests

☐ Not performed / not attached ☐ Performed and attached

Specify: _____

Summary outcome:

6.6 Other examinations or documents attached

7. DECLARED USE OF THE LOT

Declared use at the date of examination:

- ☐ Show jumping
- ☐ Dressage
- ☐ Eventing
- ☐ Breeding
- ☐ Leisure
- ☐ Sport pony
- ☐ Other: _____

Veterinarian's assessment in relation to the declared use, limited to what is ascertainable at the examination and from the attached documentation:

8. PROFESSIONAL CONCLUSIONS

- ☐ Further diagnostic investigations are recommended before expressing a more complete assessment.

Veterinarian's concluding remarks:

Recommended follow-up / further actions:

9. DECLARATIONS, LIMITATIONS AND SCOPE OF THE REPORT

This report:

- a) records the clinical and functional status of the lot as of the date of examination and within the limits of the examination performed;
- b) is drawn up on the basis of direct clinical observation, the statements made by the owner or custodian and any documentation attached;
- c) serves an informational and descriptive purpose for the purposes of pre-auction assessment;
- d) does not, in itself, constitute an autonomous warranty of sporting, breeding, commercial or functional suitability, except insofar as may be incorporated into the applicable contractual documents and the lot's sale formula;
- e) does not cover events, pathologies, alterations, trauma or clinical developments arising after the examination;
- f) does not extend its scope to examinations, systems, districts or diagnostic profiles not expressly examined, not documented or not attached.

The validity of this report is fixed at 45 days from the date of examination, unless otherwise indicated in writing by the Auction House.

The validity of any radiographs and related attached report is fixed at 12 days from the relevant date, unless otherwise indicated in writing by the Auction House.

10. ATTACHMENTS

- ☐ Copy of passport
- ☐ Clinical report
- ☐ Radiographs
- ☐ X-ray report
- ☐ Ultrasound
- ☐ Endoscopy
- ☐ Laboratory tests
- ☐ Genetic tests / WFFS
- ☐ Pregnancy certificate
- ☐ Breeding / insemination certificate
- ☐ Other: _____

11. VETERINARIAN'S SIGNATURE

Place and date: _____

Signature of the certifying veterinarian

Professional stamp
